Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 7/12/04 fails to comply with 37 CFR 1.97(c) because it lacks a statement as specified in 37 CFR 1.97(e). It has been placed in the application file, but the information referred to therein has not been considered.

The information disclosure statement filed 7/12/04 fails to comply with 37 CFR 1.97(c) because it lacks the fee set forth in 37 CFR 1.17(p). It has been placed in the application file, but the information referred to therein has not been considered.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: surface 18, aperture/measuring chamber 19, and surface 20. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 3743

Specification

The disclosure is objected to because of the following informalities: It is suggested that proper HEADINGS be placed throughout the specification.

Correction is required.

Claim Objections

Claims 27-29 and 31 are objected to because of the following informalities: claims 27-29 depend from cancelled claims. Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 26-31 are rejected under 35 U.S.C. 102(e) as being anticipated by Whaley et.al. (6,119,688).

Whaley in a medicament delivery device discloses:

- a medicament reservoir (11);
- an inhalation passage (16); and

Art Unit: 3743

- a metering member (30), provided with at least one dispensing cup (32), adapted to transfer a measured dose of medicament from the medicament reservoir to the inhalation passage; wherein the metering member (30) provides at least one measuring chamber for transferring medicament from the reservoir to the dispensing cup and the dispensing cup is provided with an air duct (at 23).

With respect to claim 27, Whaley discloses that the device is provided with a moisture proof barrier (14, because the housing covers the device it inherently provides a moisture proof barrier).

With respect to claims 28 and 31, Whaley discloses wherein the metering member comprises a moisture resistant sleeve (33, because the sleeve provides a cover it inherently provides a moisture barrier and based on the kind of material used for manufacturing the device the materials are of a moisture resistant property; Col. 8, lines 8-17).

With respect to claim 30, Whaley discloses:

- a medicament reservoir (11);
- an inhalation passage (16) for the delivery of the medicament; and
- a metering member (30), provided with at least one dispensing cup (32), adapted to transfer a measured dose of medicament from the medicament reservoir (11);
- wherein the metering member provides at least one measuring chamber (in 30) for transferring medicament from the reservoir (11) to said dispensing cup

Art Unit: 3743

(32) is provided with a duct (23) to allow air to be sucked through the metering member upon inhalation by a patient.

Response to Arguments

Applicant's arguments with respect to claims 1-25 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
